KUUKS wooden acoustic panels

aesthetic and sound environment improving panels

Modern and functional

Elegant, functional and decorative finishing solution for both public and private spaces.

Customizable dimensions

The standard size of the panel can be cut to fit the room. The panels are ready for immediate assembly.

Wide range of decors

A wide selection of decors with possibility to adapt to any interior and taste.

Easy and simple to install

Our panels can be installed quickly and easily following the manufacturers instructions.

An environmentally friendly solution

Made of MDF boards, veneer and synthetic felt obtained from recycled PET bottles

Improves the sound environment

Absorb the sound waves and remove reverberation
